This notice applies to your Hyundai, VIN:

Dear

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above. Hyundai is initiating a new recall campaign 205, to replace recall campaign 194, a safety recall to address a condition with the Anti-Lock Brake System (“ABS”) modules in certain model year 2013 – 2015 Hyundai Santa Fe Sport vehicles produced for sale in the U.S. market and Canada.

What is the problem?

The subject vehicles are equipped with Anti-Lock Brake System (“ABS”) modules that could leak brake fluid internally and cause an electrical short over time. An electrical short could result in significant overcurrent in the ABS module increasing the risk of an engine compartment fire while parked or driving.

What will Hyundai do?

Your Hyundai dealer will inspect the ABS module, replace the multi-fuse, and if necessary, replace the ABS module. This procedure will be performed at **NO CHARGE** to you.

What should you do?

Please contact your nearest Hyundai dealer to schedule the recall repair as soon as possible.

Owners should park their vehicles outside and away from structures until the recall repair is completed. If the Malfunction Indicator Light is illuminated in your vehicle, you should seek service at your Hyundai dealer as soon as possible. The actual time required to perform the repair will take less than one hour, however your vehicle may be needed longer. Therefore, we recommend scheduling a service appointment to minimize inconvenience.
